

*Independent United Order of Mechanics, Friendly Society, W.H., Inc.*

Christma

*The Most Worshipful Grand Master  
Christmas Message to the Members and Families of the  
Independent United Order of Mechanics, Friendly Society,  
Western Hemisphere, Incorporated.*

It is with Great honor and privilege as the Most Worshipful Grand Master, of the **Independent United Order of Mechanics, Friendly Society, Western Hemisphere, Incorporated**, that I extend Seasons greetings on behalf of the Executive Committee of Grand Council to the Officers and Members of the District Grand Jurisdictions, worldwide.

Much of the glad anticipation of the Christmas season is born of the hope that, with God's help a just and lasting peace may someday be achieved on this earth. We as Independent United Order of Mechanics, members have contributed our deeds, as well as words to the realization of this hope and we are aware of the magnitude of the task.

Through Jesus Christ the world will be a better and fairer place. This faith sustains us today as it has sustained mankind for centuries past. This is why the Christmas story, with the bright stars shining and the angels singing, moves us to wonder and stirs our hearts to praise. Now my fellow Mechanics, I wish for all of you a Christmas filled with the joy of the Holy Spirit and many years of future happiness with the peace of God and a blessed 2020.

Fraternally,

Rt. Hon. Errol G. Collins  
Most Worshipful Grand Master
