THE HISTORICAL ARCHIVE And DOCUMENTATION DIVISION (HADD) OUR STRUCTURE

The Historical Archives and Documentation Division of the Order is comprised of a Board of Directors and District Coordinators representing all the Jurisdictional Regions of the Mechanics World.

The Division is currently under the directorship of the Rt. Hon. Edward F. Barrow assisted by a number of international Associate Directors from all regions of the Mechanics world, including North, South and Central America, Europe and the Caribbean.

Each District Grand Jurisdiction is represented by a District Coordinator who serves as liaison with the Historical Division, and researcher for their Jurisdiction in the historical and Investigative process of information gathering, within their Grand Jurisdiction.

OUR MISSION:

To actualize the mandate of Grand Council through the processes of information gathering, diligent research and scientific analysis

To create Jurisdictional centers through coordinated networking between District Grand Jurisdictions worldwide and the Historical Division in its investigative process

To write and to document in volumes, booklets and to digitize the history of the Mechanics Order from its inception and continuing thereafter in its perpetuity; and after due authentication of all relevant information and researched materials, to preserve them for historical posterity and future generations of Mechanics

To open and operate a Mechanics Gallery to serve as an "Honor Roll; with display of photographs, plaques, writings, manuscripts, artifacts, etc., not being secret works of the Order; to be accessible to all members of the Mechanics Order and members of the public.

Our Motto: Protecting the future by preserving the past

WHAT ARE WE?

We are an autonomous Divisional Branch of the Independent United Order of Mechanics Friendly Society, Western Hemisphere Inc., known as the IUOM Historical Archive and Documentation Division, with a perpetual life of the Order.
